

# INDEX TO VOLUME 4

The star (\*) preceding the page number indicates an original article in THE ARCHIVES. No author entries are made except for original articles. Book Reviews, Obituaries and Society Transactions are indexed under these headings, in their alphabetical order under the letters B, O and S, respectively.

	PAGE
Abderhalden Reaction in tumor diagnosis.....	126
Abortin, purification.....	465
Acariasis of urinary tract.....	99
pulmonary, in monkeys.....	112
Acetaldehyde, origin of, in metabolism.....	460
Acid-Base Equilibrium.....	453, 1030
effect of roentgen rays on.....	96
Acrocephaly and syndactylism in mother and daughter.....	266
Acromegaly.....	1032
pathologic anatomy.....	816
Actinomyces, in psoriasis.....	132
pseudonecrophorus, a new factor in puerperal infection.....	628
Actinomycosis, bronchial.....	289
of suprarenals.....	1050
pulmonary.....	1050
Adamantinoma, pituitary.....	618
Addison's Disease.....	446
atrophic sclerosis of suprarenal cortex and of thyroid with.....	274
Adenocarcinoma, of breast, microscopy of.....	470
of uterus.....	851
Adenoma, benign, of kidney.....	617
sebaceous so-called (Pringlebalzer's tumor).....	470
Adenomyoma, of fundus of gallbladder.....	622
Adipocere, chemistry of fats of.....	1078
Adrenals: See Suprarenals	
Agar-dye, differential medium for colontyphoid group.....	1051
Agglutination: See also Blood groups	
by precipitin.....	1065
effect of culture medium on.....	300
of bacterial emulsions, effect of heat on reactions, with aged erythrocytes.....	639
Agglutinins, cold, in human serum.....	642
in tissue fluid.....	116
iso-agglutinins in horse blood.....	296
iso-agglutinins in leukemia.....	299
Agglutinogens, heat-stable, relation to sensitivity to bacteriophage in salmonella group.....	298
Agranulocytosis.....	629
Air, vitiated, effect, on experimental tuberculosis.....	324, 824
Albers-Schönberg's Disease: See Osteosclerosis fragilis	
Alcohol, in normal placental tissue.....	1047
wood, changes in vegetative nervous system from.....	1044
Alkali, injections, effects on cardiac output of anesthetized dog.....	854
Allergy, cutaneous, production by streptococcal culture filtrates from erysipelas from immunization with streptococcal strains from erysipelas.....	609
in leprosy.....	1066
reactions to streptococcus antigens.....	848
Ambard's Laws: See Kidneys, excretion	118
Ameba, endolimax, and leishmania tropica, thrombozytobarine against.....	641
parasitic, cultural methods in survey for.....	111
Amino-Acids, relation to Wassermann reaction.....	629
Amniotic Fluid, scantiness, caused by loss of functional epithelium.....	1041
Amyloidosis, of muscles of diaphragm as cause of death in pneumonia and other conditions.....	*681
relation of reticulo-endothelial system to.....	447
Anaphylaxis, anaphylactic shock and mechanical obstruction of hepatic veins in dog.....	117

	PAGE
Anaphylaxis—Continued	
anaphylactic shock following injections of drugs and vaccines.....	442
experimental inflammation in.....	273
fall of blood pressure in, from reduction of blood viscosity.....	1029
heparin inhibition in.....	1061
heterophile, relation to.....	*776
in bronchospasm of guinea-pig.....	657
in frogs.....	848
mechanism.....	298
muscle contraction in.....	1034
of acidfast bacteria.....	1064
rabbit.....	485
rabbit, bladder reactions in.....	119
relation to immunity.....	118
respiratory.....	1061
toxicity for guinea-pigs.....	*776
transfer of hypersensitiveness in.....	633
variation in glycemia in anaphylactic, histamine, and peptone shock.....	640
Anatomy, of Peruvian mummies.....	*26
Anemia, experimental, blood hemoglobin production and conservation in.....	500
experimental, effect of foreign particles on reticulo-endothelial system and.....	269
pernicious, hyperplasia of bone marrow in sickle-cell.....	814
sickle-cell.....	97, 266, 271, 615
spleen-cell; autopsy.....	814
splenic, microchemical reactions of spleen in.....	815
Von Jaksch's anemia.....	1039
Anesthesia, ether, effects on cardiac output in dog.....	609
Aneurysm, dissecting, of aorta.....	143
femoral arterial, in Pott's disease.....	819
of liver.....	45
Angioneuromyoma, localization.....	852
Anonychia, congenital with assimilation of phalanges.....	105
Anthrax.....	840
infection, hemorrhagic meningitis in.....	449
vaccination, against.....	1068
Anthrocosis: See Intestines	
Anthropometry, identification by comparison of roentgenograms of nasal accessory sinuses and mastoid processes.....	646
Antibodies, anaphylactic, relationship to proteins.....	849
effect of heat on.....	1065
formation, against circulating lipoids; significance in Wassermann reaction.....	298
formation, against experimental carcinoma.....	1073
formation, enzyme theory.....	1067
heterophile, and antigens.....	*776
lipoid and protein, independence of, in immune serums.....	642
protective, effects of S-producing and non S-producing pneumococci on.....	1063
typhoid, isolation, purification and chemical nature.....	635
Antigens: See also Antibodies	
action, of bacterial lipoids.....	847
alcoholic extracts of bacteria.....	641
antigenic functions of alcohol-soluble substances of human blood cells.....	641
antigenic properties of anatoxin of Ramon.....	120
heterophile, and antibodies.....	*776
in basic beef heart, comparative study of, in Wassermann test.....	488
in tubercle bacilli; difference between boiled and unaltered.....	1968
Antilynsins: See Complement Fixation	
Antitoxin, solutions, phenol and tri-cresol effects in.....	639
Aorta, atheroma of.....	269
calcium deposition in media.....	673
changes at orifices of intercostal arteries in dissecting aneurysm of aorta.....	143
elasticity and volume.....	275
in Paludism.....	102

neuroblastoma of, with metastases to liver, skull and bones.....	1038
transplantation .....	447
tuberculosis of, with perforation into stomach .....	104
Sympathicoblastoma, congenital, of supra-renal .....	*207
in spinal canal.....	1074
paravertebral, malignant, transformation into a benign ganglioneuroma.....	850
Synctioma: See Placenta, tumors	
Syndactylia, and acrocephaly combined, in mother and daughter.....	266
Syphilis, curability .....	294
experimental .....	846
experimental, effect of zinc in.....	285
experimental, influence of light reaction to infection in.....	456
infection, from cadaver.....	1056
inoculation with, cancer of liver following latent, as cause of heart disease.....	125
of pulmonary artery, pathologic anatomy of .....	*365
reinfection, with heterologous strains of treponema pallidum .....	1065
serodiagnosis: See also Kahn Test; Wassermann Test, etc.	
serodiagnosis, comparison of Kahn, Meinicke, Kolman-Wassermann, and Ruediger-Wassermann tests for.....	1078
serodiagnosis, development and technic of flocculation reaction in.....	121
serodiagnosis, flocculation reaction for.....	305
Taenia crassicolis, larvae, transplantation in production of cysticercus sarcomas.....	1070
Tartar, formation .....	453
Teeth, growth, biochemical study.....	277
physiologic and pathologic chemistry of; influence of calcium, vitamins and parathyroid glands .....	265
Temperature, influence of thyroid on.....	264
significance of experimental cooling of body, with reference to colds.....	444
Tendons, lipid deposition in.....	827
sheaths, and joint capsules, tumors of, and multiple xanthoma.....	*507
Teratoma, retroperitoneal .....	1073
Testicle, nuclear inclusions in, from varicella virus .....	831
sarcoma, angioplastic .....	643
transplantation of ovarian tissue into.....	275
undescended .....	616
Tetanolysin, and tetanospasmin.....	850, 1065
Tetanospasmin, and tetanolysin.....	850, 1065
Tetanus, active immunization against.....	1068
passive immunity in, by cutaneous route.....	1068
toxin and antitoxin, and active immunization .....	1068
toxin, susceptibility of albino rats following adrenalectomy .....	440
Tetany, pathogenesis of .....	864
postoperative, blood guanidine in, following parathyroidectomy .....	610
Thacker, H. S.: Origin of pulmonary plugs in suprarenalectomized rats.....	*974
Thoracic Duct, effect of mechanical obstruction of hepatic veins on outflow of lymph from .....	117
Thorax, roentgenography, annular shadows in .....	1041
Throat, infections, scarlatinal, without exanthem .....	1050
streptococci of .....	838
Thrombo-angiitis, obliterans .....	270
Thrombocytes: See Blood, platelets	
Thrombosis, of anterior spinal artery, from sprain of cervical spine.....	446
of renal veins .....	823
Thrombozytobarine, against ameba endolimax and leishmania tropica.....	641
Thumb, cancer, caused by radium salts.....	1072
Thymus: See also Status thymicolymphaticus	
growth; relation to status thymicolymphaticus and thymic symptoms.....	1039
proliferative reactions of, in presence of foreign bodies .....	823
Thyroglobulin, precipitin reaction of, specificity in .....	637

	PAGE
Thyroid, aberrant, in periaortic fat bodies.....	*937
and parathyroid, rôle of, in chemical differentiation of bones during growth...	611
and suprarenal cortex, atrophic sclerosis of, with Addison's disease.....	274
atrophic sclerosis, with Addison's disease	274
diseases, alkali reserve of blood in.....	111
inflammation, acute .....	616
influence of, on temperature.....	264
mitochondria-rich and mitochondria-poor cells in .....	490
of swine, in endemic goiter regions.....	822
parathyroids on anterior surface of.....	446
Thyroiditis: See Thyroid, inflammation	
Tibia, congenital absence.....	818
Tissue, acidity, and blood-acidity, relation to volume-flow of blood.....	1029
adipose, effect of phosphorus poisoning on	623
cells, formation of giant cells in; their similarity to those in tuberculous lesions .....	1042
changes, in liver removed by biopsy.....	623
changes, similarity of, in chronic hydrocyanic acid poisoning and beriberi.....	449
connective, function in defense reactions.....	557
connective, swelling and other changes.....	273
connective. thermodynamics of.....	624
culture, effect of alcoholic extracts of tumors on .....	1072
culture, in vitro, factors of growth regulatory nature in.....	811
culture, intracellular fat granules in.....	627
culture, of cancer.....	1076
defensive process of, against cancer.....	306
elastic, of heart, in advancing age.....	1038
elastometry, for clinical use.....	127
embedding of, by carbon disulphide-paraffin method; staining by hemotoxylin and eosin.....	*979
fluid, agglutinin content of.....	296
heterotop proliferation of.....	452
inflammatory reactions in, following simple injury .....	*329
injury, and circulatory disturbances, in development of miliary tubercle in liver .....	1056
insect, a quantitative estimation of arsenic in .....	658
iron in .....	501, 1044
microscopic changes in, after death.....	311
normal and neoplastic, growth of, relation to cholesterol .....	853
normal and neoplastic, influence of hydrolyses of various organs in vitro	853
cultures of .....	108
osteoclastic, development of.....	614
permeability of, modification by roentgen ray .....	1044
placental, alcoholic content of.....	839
reactions, of bacteria.....	1030
rôle of, in maintaining acid-base equilibrium of blood; effect of hind-leg preparation .....	1030
rôle of, in maintaining acid-base equilibrium of blood; effect of isolated muscle tissue .....	1030
transplantation, syngenetic, syngenesio-transplantation, in guinea-pig and rat.....	98
Tongue, monilia infection of.....	281
mucoid cancer of .....	826
tuberculosis of .....	814
Toxin, solutions, phenol and tricesol effects in .....	639
Trachea, in goiter.....	447
Transplantation: See also Suprenals; Tissue; Tumors, transplantable, etc.	
and individuality differential in strains of inbred rats .....	439
Trichophytosis: See Ringworm, infection	
Trypan Blue, cholesterol, and iron, storage of, by reticulo-endothelial system.....	*958
Trypanosomiasis, Congo, paralytic phenomena in .....	499
transmission of .....	459
Tubercle Bacillus, avian and mammalian, sensitization method of differentiation, biologic difference between unaltered and boiled antigen in.....	1068
conjunctival infections with, in guinea-pig .....	1047

# INDEX TO VOLUME 4

Tubercle Bacillus—Continued	PAGE
determination of, in bacillary suspensions by culture method, as compared with result of infections.....	291
distribution, factor in localization of tuberculosis.....	1048
elimination in feces, bile and urine of infected guinea-pigs.....	832
growth, determination of, by gaseous tension; variability of localization of tuberculosis in organs of different animals.....	280
growth, effects of food accessory substances (vitamins) on.....	286
hydrogen-ion concentration in, caused by members of genus <i>Mycobacterium</i> ....	1048
in gastric contents of children with pulmonary tuberculosis.....	859
in human plasma.....	1067
in latent tuberculous lesions and in lung tissue without tuberculous lesions.....	*1
in normal kidney.....	859
in sputum, animal and cultural tests....	859
infection, human and bovine type, resistance of rabbits to.....	283, *687
influence of age on skin sensitiveness in injections of.....	634
isolation mediums for.....	1081
mammalian, antigenic properties and virulence of.....	844
microscopy.....	476
nonacid-fast, in treatment of tuberculosis.	1052
nonacid-fast stage of.....	288
reaction with immune serum.....	1084
resistance of lung of rabbit to human and bovine forms of.....	283, *687
surface composition of.....	1051
types, in human tuberculosis.....	281
variations in tubercle parasite.....	322
virulent filtrable elements of.....	113
Tuberculin, influence of light on.....	643
reaction, specificity of.....	642
Tuberculosis, and cancer, histologic determination of, from paracentesis material	477
cholesterinemia of pregnancy in.....	114
chronic, glycemia in.....	1045
complement fixation in.....	463
experimental, and trichophytosis, double infection with.....	1057
experimental, effect of Sanocrysin on.....	290
experimental epidemiology of.....	282
experimental, from vitiated air and inadequate feeding.....	1047
experimental, in guinea-pigs.....	448
experimental, resistance of lung of rabbit to.....	*687
familial, as factor in causation of sero-fibrinous pleurisy.....	1055
infection and reinfection, roentgen-ray study of.....	292
infection, primary.....	813
infection, primary extrapulmonary, with nonspecific giant cell pneumonia.....	462
infection, with minimal doses of bacilli..	1058
Kahn test for syphilis in.....	312
latent lesions, tubercle bacilli in.....	*1
local hypersensitiveness in.....	487
localization of in organs of different animals; susceptibility of various organs to tubercle bacillus.....	280
miliary, in liver, tissue injury and circulatory disturbances of.....	1056
miliary, thickening of reticulum in repairs of lesions of.....	814
of tongue.....	814
propagation of.....	629, 630
pulmonary, biologic diagnosis of; use of tebeptotin, and sedimentation reaction in.....	1081
pulmonary, carbohydrate metabolism in..	1037
pulmonary, disturbances of water balance in.....	630
pulmonary, effect on increase of pancreatic islets.....	1057
pulmonary, erythema phenomenon in....	1056
pulmonary, etiology in adult; rarity of new infections; importance of old family infection.....	113
pulmonary, from hemolytic streptococcal infection.....	1055

Tuberculosis—Continued	PAGE
pulmonary, pseudohemolytic streptococci in sputum of.....	459
pulmonary, tubercle bacilli in gastric contents of patients with.....	859
pulmonary, vital capacity and collapse therapy in.....	1036
reinfection in man.....	289
reinfection, roentgen-ray study of.....	292
researches, 1918-1926.....	1059
serodiagnosis, flocculation reaction in diagnosis of malignant disease.....	305
serodiagnosis, identification of skin-reacting substance in.....	293
suprarenal, with perforation into stomach susceptibility to; importance of distribution of tubercle bacilli in various organs.....	1048
treatment with tubercle bacilli made non-acid-fast with oleic acid.....	1052
vaccination.....	847
vaccination, by inoculation with living organisms.....	847
Tularemia, comparison of lesions in man and animals.....	498
Tumors; See also Cancer; Sarcoma; and under names of tumors	
Abderhalden reaction in early diagnosis of.....	126
alcoholic extracts of, action on tissues in vitro.....	1072
among black race in Africa.....	1073
arsenic distribution in.....	303
bacillogenic, of rats, histology of.....	1076
bilateral, having structure of suprarenal cortex.....	470
endometrial: See under Endometrium	
etiology.....	309
glomic, localization of.....	852
glomic, subcutaneous.....	852
growth of, relation to cholesterol in tissue	853
immunity against.....	124
influence of hydrolysates on development of.....	853
intestinal.....	827
intracranial, of preadolescence.....	1038
intracutaneous, immunization against.....	1076
intrathoracic.....	818
intrathoracic, incidence of, in Manchester.....	1071
Krukenberg, of ovaries.....	614
Mendelian heredity of, in man.....	1077
multiple, in adjacent muscle tissue, in osteitis fibrosa.....	109
multiple of domestic animals.....	310
multiple, primary, malignant.....	307
multiple, subcutaneous, and vitiligo.....	1084
of bladder.....	807
of breast, with Paget's disease and perithelioma.....	470
of central nervous system.....	625
of mesentery.....	1073
of ovary, rare.....	265
of parathyroid, with osteitis fibrosa.....	109
of parotid region, following earlier removal of tumor.....	301
of plants, due to mouse cancer bacillus..	125
of skin.....	1085
of spinal canal.....	1074
of spleen, incidence and nature of.....	1037
of suprarenals.....	*207, 304
of tendon sheaths, joint capsules and multiple xanthoma.....	*507
postoperative, of parotid region.....	301
primary, histologic difference from its metastasis.....	1083
recurrence and growth, influence of insufficient diets and.....	303
spontaneous recession of.....	*528
thorium treatment of.....	645
transplantable, action of insulin on.....	470
transplantable, breakdown of hereditary immunity to by introduction of irritant agent.....	1070
transplantable, effect of host immunity to filtrable virus on.....	1071
transplantable, influence of light on growth and malignancy of.....	304, 643
transplantable, of rats.....	125
treatment of, with yeast.....	472

# INDEX TO VOLUME 4

	PAGE		PAGE
Tungsten Arch, as source of ultraviolet radiation .....	629	Vaccines, bacterial, standardization of, by photometric methods .....	465
Turbidity, measurements, in biochemical analysis .....	659	nature of shock symptoms occasionally following .....	442
Twinning, hemihypertrophy and .....	445	Vagina, infectious granular inflammation of, of cows .....	456
Typhoid, abdominal, meningitis typhosa with .....	115	Vasomotor System, diseases, caused by visceral disease .....	813
antibodies, isolation, purification, and chemical nature of .....	635	Vasoneuroses, etiology of .....	813
bacillus, infection of cerebrospinal fluid with, in abdominal typhoid, causing meningitis typhosa .....	115	Veins, hepatic, mechanical obstruction, effect on outflow of lymph from thoracic duct .....	117
bacillus, isolation of, with brilliant green .....	1054	portal, sclerosis of .....	278
carriers, autopsy .....	633	renal, thrombosis of .....	823
diagnosis, laboratory method .....	312	sclerosis of .....	824
infection and acquired immunity, mechanism of .....	120	Vena Cava, inferior, torn, by blow from fist .....	855
mechanism of immunity .....	848	Vibrios from calves; their serologic relation to vibrio fetus .....	116
Typhus, endemic (Brill's disease) in southeastern United States; mode of transmission of .....	112	Virus, chicken tumor, inactivation of, by carmine .....	468
Weil-Felix reaction in .....	465	fixed, biologic properties of .....	467
Udders, inflammation, incidence, and infecting organisms in dairy herds .....	837	Vital Capacity, in pulmonary tuberculosis and urine collapse therapy .....	1036
Ulcers, cutaneous, pseudo-epitheliomatous hyperplasia at margin of .....	851	in various postures .....	1036
Ultraviolet Rays, effects, on regeneration process of skin .....	273	Vital Statistics, annual report for 1926 of county physician of Essex County, N. J. .....	646
effects, on Rous chicken sarcoma .....	469	Vitamin A, pathology of deficiency in .....	492
tungsten arch as source of radiation .....	629	C, in cow's milk; influence of ultraviolet rays on .....	96
Umbilicus, "weeping", with persistent double urachus .....	861	deficiency, in diet, influence on experimental tuberculosis .....	1047
Undulant Fever: See Malta Fever		E and iron assimilation .....	442
Uranium, nitrate, toxicity, in pregnant dogs .....	267	E, fat solubility of; relation to reproduction .....	1045
Urea, determination, effect of blood preservatives on .....	396	effects, on growth of tubercle bacilli .....	286
Ureters, reduplication of .....	826	Vitiligo, with multiple subcutaneous tumors .....	1084
Uric Acid, experimental nephritis from .....	269	Warren, S.: Modified type of autopsy table .....	771
Urinary Tract, parasitic infection (acarus) of .....	99	Wassermann Reaction .....	633
Urine, acetone bodies in, during pregnancy acetone bodies, seasonal occurrence of, in fasting rats with changes in carbohydrate metabolism .....	611	antibodies against circulating lipoids .....	298
albumins, removal of .....	127	antibody, effect of anticomplementary substances on .....	635
casts, formation, in chronic nephritis .....	815	antigens, basic beef heart, comparative study of .....	488
excretion of zinc in .....	454	dried complement in .....	476
iodine in, colorimetric method for determination .....	127	hydrogen ion concentration of blood in .....	1046
nature of picrate obtained from, by method of Findlay and Sharpe .....	315	Kahn test and .....	633
nitrate test .....	859	of milk of nursing mothers .....	298
pentosuria .....	277	reagents, production of, by means of trypanosomes .....	295
sugar .....	475	relation between amino-acids and .....	629
sugar, determination of .....	1079	Water, analysis, turbidity measurements in kinetics of exosmosis of, from living cells .....	659
sugar, in pregnancy .....	812	Weil-Felix Reaction, specificity of, in Brill's disease .....	465
sugars, nature of .....	277	Well's, H. G.: Waxy degeneration of diaphragm; factor in causing death in pneumonia and other conditions .....	681
sulphur compounds in, nephelometric determinations .....	314	Wheals, production through internal channels .....	115
urochromogen in .....	1080	Whooping Cough, bacteriology; pneumonia caused by pertussis bacillus .....	732
Urticaria, and autoinfection in strongyloidosis .....	466	Williams, H. U.: Gross and microscopic anatomy of two Peruvian mummies .....	26
wheel production through internal channels .....	115	Xanthoma .....	447
Uterus, adenocarcinoma .....	851	diabeticorum .....	97
bacterial content of, at cesarean section .....	279	multiple, and tumors of tendon sheaths and joint capsules .....	507
cancer, cause of .....	380	xanthomatosis of skin, and familial cholelithiasis, essential hypercholesterinemia with .....	104
cancer, incidence among Jewish women .....	468	Yeasts, necessity of carbon dioxide for growth of .....	286
cancer, of cervix, with local eosinophilia .....	310	Yellow Fever, Pfeiffer Reaction in, with Leptospira .....	830
cancer, radiated, prognosis in .....	644	Zinc, administration, effects on reproduction and growth in albino rat .....	439
cervix, changes in epithelioma of .....	1074	effects, in experimental syphilis .....	285
duplex bicollis, vagina simplex and superfetation .....	265	excretion of, in urine and feces .....	454
fibromyoma, palisade nuclear arrangement of .....	1074	oxide, effect of long continued ingestion of .....	439
fibrosarcoma; tumor and foreign body giant cells in .....	99	toxicity .....	1033
Uveitis, lymphatic, caused by virus of herpes simplex .....	112	Zuckerkindl's organs, epinephrine content of .....	264
Vaccination, diseases of central nervous system following .....	300		
experimental, rôle of reticulo-endothelial system in; experiments with India ink .....	296
